Atau coba update windowsnya, karna biasanya driver juga termasuk dalam list update windows update.. Coba download driver terbaru dan udah support win 10 di situs resmi vendor hardware agan.. Thanks to from • Use Windows Update to update to the latest driver • Click on Graphics in left-most column.. The chipset is already pretty old so it's not surprising Intel discontinued development on them a couple of years ago.. 0 then it is entirely possible that the Windows drivers could be resurrected and given support, but there is almost no reason at all for Intel to support that line anymore.

driver windows phone usb

It looks to me as if Intel have basically abandoned the drivers If the Linux drivers from Intel do indeed support OpenGL 2.. It is probably a combination of those sort of factors that are preventing Intel from releasing updated drivers, time, effort and money make it simply not worthwhile for a small and aging user-base that simply aren't going to see enough of a benefit to be worth the cost. Note the version of newer driver Still install • After reboot, your resolution is messed up, you can't set brightness and all.. This download installs Intel® Graphics Media Accelerator Driver version 15 12 75.. Atau alternatif lain agan bisa update drivernya pake aplikasi driver updater, spt (btw, versi free aja udah cukup kok, dan iobit jg udah support win 10). Download accelerator for windows 10 (page 2) Windows iPhone Android Windows Phone BlackBerry Mac Web Apps.. Choose whether you have a desktop, laptop or tablet Then select your graphic card in the third column.. Intel Graphics Media Accelerator 3150 Driver Kalau masih tetap ngga ada, mungkin driver win 10 buat untuk hardware agan memang belum tersedia.. 4 1930 (8) for the integrated graphics controller of Intel® Chipsets for Windows 7*.. Is OpenGL support *really going to help you in any way whatsoever? Looking at the Intel site for that chipset it looks like the Windows drivers are circa 2010 while the Linux ones are late last year.. • Again go to Intel Download Center • Choose Chipsets in the left Then choose

desktop or laptop.. • Download the Windows 7 drivers • Attempt to Install It will say that you already have a newer driver.
